Chief, Permits Branch  
Office of Air Quality

## Notice of Decision – Approval

Please be advised that on behalf of the Commissioner of the Department of Environmental Management, I have issued a decision regarding the enclosed matter. Pursuant to 326 IAC 2, this approval was effective immediately upon submittal of the application.

If you wish to challenge this decision, IC 4-21.5-3-7 requires that you file a petition for administrative review. This petition may include a request for stay of effectiveness and must be submitted to the Office of Environmental Adjudication, 100 North Senate Avenue, Government Center North, Room 1049, Indianapolis, IN 46204, **within eighteen (18) calendar days from the mailing of this notice**. The filing of a petition for administrative review is complete on the earliest of the following dates that apply to the filing:

- (1) the date the document is delivered to the Office of Environmental Adjudication (OEA);
- (2) the date of the postmark on the envelope containing the document, if the document is mailed to OEA by U.S. mail; or
- (3) The date on which the document is deposited with a private carrier, as shown by receipt issued by the carrier, if the document is sent to the OEA by private carrier.

The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by the decision or otherwise entitled to review by law. Please identify the permit, decision, or other order for which you seek review by permit number, name of the applicant, location, date of this notice and all of the following:

- (1) the name and address of the person making the request;
- (2) the interest of the person making the request;
- (3) identification of any persons represented by the person making the request;
- (4) the reasons, with particularity, for the request;
- (5) the issues, with particularity, proposed for considerations at any hearing; and
- (6) identification of the terms and conditions which, in the judgment of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing documents of the type issued by the Commissioner.

If you have technical questions regarding the enclosed documents, please contact the Office of Air Quality, Permits Branch at (317) 233-0178. Callers from within Indiana may call toll-free at 1-800-451-6027, ext. 3-0178.

Re: **039-18516**  
First Administrative Amendment to  
**Part 70 039-16458-00444**

Dear Mr. Frey:

SunnyBrook RV, Inc. was issued a Part 70 permit on November 17, 2003, for a stationary towable recreational vehicle manufacturing source. A letter requesting an administrative amendment was received on January 30, 2004. The source has requested the addition of a baghouse to replace existing portable dust collectors that control insignificant woodworking activities at the facility. The replacement of the control equipment shall not have any effect on the potential to emit of the woodworking activities. Pursuant to the provisions of 2-7-11 the permit is hereby administratively amended as follows (~~strikeout~~ to show deletions and **bold** to show additions):

(1) The facility description in sections A.3(a)(6) and D.2(a)(6) are modified as follows:

(6) Two (2) woodworking operations each with Particulate emissions less than five (5) pounds per hour or twenty-five (25) pound per day each unit, consisting of: [326 IAC 6-3-2]

- (i) One (1) Cut off saw, one (1) 10" Chop saw, one (1) Table saw, one (1) Edge Sander and one (1) 7' x 7' Panel saw, with combined maximum process weight rate of 445 pounds per hour and each exhausting through a baghouse inside the building.
- (ii) One (1) pin router, table saw and panel saw, each with particulate matter controlled by a portable dust collector, one (1) cutoff saw and nine (9) hand router systems, **both controlled by a 5100 cubic feet per minute pulse-jet, return-air baghouse, each with particulate matter controlled by a portable vacuum dust collector**; three (3) cut off saws, three (3) band saws, eight (8) chop saws, one (1) table saw, two (2) edge sanders, one (1) bench grinder, two (2) hand buffers, one (1) drill press, one (1) mitre saw, twenty-five (25) portable hand held routers, five (5) hand held air sanders, and five (5) hand drills, with combined maximum process weight rate of 1104 pounds per hour.

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit pages to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Madhurima Moulik at (800) 451-6027, press 0, extension 3-0868, or dial (317) 233-0868.

Sincerely,

## **PART 70 OPERATING PERMIT RENEWAL OFFICE OF AIR QUALITY**

**SunnyBrook RV, Inc.  
201 14th Street  
Middlebury, Indiana 46540**

(herein known as the Permittee) is hereby authorized to operate subject to the conditions contained herein, the source described in Section A (Source Summary) of this permit.

The Permittee must comply with all conditions of this permit. Noncompliance with any provisions of this permit is grounds for enforcement action; permit termination, revocation and reissuance, or modification; or denial of a permit renewal application. Noncompliance with any provision of this permit, except any provision specifically designated as not federally enforceable, constitutes a violation of the Clean Air Act. It shall not be a defense for the Permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit. An emergency does constitute an affirmative defense in an enforcement action provided the Permittee complies with the applicable requirements set forth in Section B, Emergency Provisions.

This permit is issued in accordance with 326 IAC 2 and 40 CFR Part 70 Appendix A and contains the conditions and provisions specified in 326 IAC 2-7 as required by 42 U.S.C. 7401, et. seq. (Clean Air Act as amended by the 1990 Clean Air Act Amendments), 40 CFR Part 70.6, IC 13-15 and IC 13-17.

Operation Permit No.: T039-16458-00444	
Issued by: Janet G. McCabe, Assistant Commissioner Office of Air Quality	Issuance Date: November 17, 2003

First Administrative Amendment No.: 039-18516	Pages Modified: 6, 26
Issued by: Original signed by Paul Dubenetzky Paul Dubenetzky, Branch Chief Office of Air Quality	Issuance Date: February 20, 2004

building.

- (3) One (1) pre-finished wood cabinet assembly and stain touch up operation, consisting of one (1) mobile stain touch up process identified as SB-068, rated at 0.024 gallons per hour, utilizing air atomized spray application method and exhausting inside the building.
- (4) One (1) pre-finished wood cabinet assembly and stain touch up operation, consisting of five (5) stain touch up stations identified as FUG45, FUG46, FUG47, FUG48 and FUG49, cumulatively rated at 0.02 gallons of stain per hour, with each station utilizing an air atomized spray application method and exhausting inside the building.
- (5) Welding operations with Particulate emissions less than five (5) pounds per hour or twenty-five (25) pounds per day each unit. (Two (2) stick type welders, identified as FUG41 and FUG42). [326 IAC 6-3-2]
- (6) Two (2) woodworking operations each with Particulate emissions less than five (5) pounds per hour or twenty-five (25) pound per day each unit, consisting of: [326 IAC 6-3-2]
  - (i) One (1) Cut off saw, one (1) 10" Chop saw, one (1) Table saw, one (1) Edge Sander and one (1) 7' x 7' Panel saw, with combined maximum process weight rate of 445 pounds per hour and each exhausting through a baghouse inside the building.
  - (ii) One (1) pin router, table saw and panel saw, each with particulate matter controlled by a portable dust collector, one (1) cutoff saw and nine (9) hand router systems, both controlled by a 5100 cubic feet per minute pulse-jet, return-air baghouse; three (3) cut off saws, three (3) band saws, eight (8) chop saws, one (1) table saw, two (2) edge sanders, one (1) bench grinder, two (2) hand buffers, one (1) drill press, one (1) mitre saw, twenty-five (25) portable hand held routers, five (5) hand held air sanders, and five (5) hand drills, with combined maximum process weight rate of 1104 pounds per hour.
- (7) One (1) Metal Coating Operation consisting of hand and aerosol spray application of miscellaneous coatings to metal trailer frames and piping.
- (b) The following equipment related to manufacturing activities not resulting in the emissions of HAPs: brazing equipment, cutting torches, soldering equipment, welding equipment. [326 IAC 6-3-2]
- (c) Paved and unpaved roads and parking lots with public access. [326 IAC 6-4]

#### A.4 Part 70 Permit Applicability [326 IAC 2-7-2]

---

This stationary source is required to have a Part 70 permit by 326 IAC 2-7-2 (Applicability) because:

- (a) It is a major source, as defined in 326 IAC 2-7-1(22);
- (b) It is a source in a source category designated by the United States Environmental Protection Agency (U.S. EPA) under 40 CFR 70.3 (Part 70 - Applicability).

## SECTION D.2 FACILITY OPERATION CONDITIONS

### Facility Description [326 IAC 2-7-5(15)]:

- (a) Other categories with emissions below insignificant thresholds (i.e. less than 3 pound per hour VOC and less than 5 pounds per hour Particulate Matter).
- (1) One (1) insulation panel gluing operation, consisting of four (4) glue stations identified as SB-064 through SB-067, cumulatively rated at 1.26 gallons of adhesive per hour, with each station utilizing an airless application system and exhausting inside the building.
  - (2) Two (2) manual application processes of sealants and adhesives identified as SB-069 and SB-071, for plant wide fabrication processes and exhausting inside the building.
  - (3) One (1) pre-finished wood cabinet assembly and stain touch up operation, consisting of one (1) mobile stain touch up process identified as SB-068, rated at 0.024 gallons per hour, with utilizing air atomized spray application method and exhausting inside the building.
  - (4) One (1) pre-finished wood cabinet assembly and stain touch up operation, consisting of five (5) stain touch up stations identified as FUG45, FUG46, FUG47, FUG48 and FUG49, cumulatively rated at 0.02 gallons of stain per hour, with each station utilizing an air atomized spray application method and exhausting inside the building.
  - (5) Welding operations with Particulate emissions less than five (5) pounds per hour or twenty-five (25) pounds per day each unit. (Two (2) stick type welders, identified as FUG41 and FUG42). [326 IAC 6-3-2]
  - (6) Two (2) woodworking operations each with Particulate emissions less than five (5) pounds per hour or twenty-five (25) pound per day each unit, consisting of:
    - (i) One (1) Cut off saw, one (1) 10" Chop saw, one (1) Table saw, one (1) Edge Sander and one (1) 7' x 7' Panel saw, with combined maximum process weight rate of 445 pounds per hour and each exhausting through a baghouse inside the building.
    - (ii) One (1) pin router, table saw and panel saw, each with particulate matter controlled by a portable dust collector, one (1) cutoff saw and nine (9) hand router systems, both controlled by a 5100 cubic feet per minute pulse-jet, return-air baghouse, three (3) cut off saws, three (3) band saws, eight (8) chop saws, one (1) table saw, two (2) edge sanders, one (1) bench grinder, two (2) hand buffers, one (1) drill press, one (1) mitre saw, twenty-five (25) portable hand held routers, five (5) hand held air sanders, and five (5) hand drills, with combined maximum process weight rate of 1104 pounds per hour.
  - (7) One (1) Metal Coating Operation consisting of hand and aerosol spray application of miscellaneous coatings to metal trailer frames and piping.
- (b) The following equipment related to manufacturing activities not resulting in the emissions of HAPs: brazing equipment, cutting torches, soldering equipment, welding equipment. [326 IAC 6-3-2]

(The information describing the process contained in this facility description box is descriptive information and does not constitute enforceable conditions.)
